

Çağatay Sarioğlu

Software Developer

• sarioglancgty@outlook.com • +905314685200 • [My Portfolio](#)

I'm a software developer who is ambitious to learn since childhood, creates solutions for troubles by performing strong studies and has unexaggerated self-confidence. I have always been a person who approaches positively to the problems, focused on his internship and job, and working without confusion. I extremely believe that in order to reach my career goals in the long term, I'm going to focus on my job comprehensively by considering every job I'm in as a lesson to myself.

Technologies : Java, Jakarta EE, Spring Framework (Spring Boot), Kotlin, RDBMS, Git, Docker.

Languages : Turkish: Native Language, English: B2(Upper-Intermediate).

Programming resources used for self-study: Patika.dev, Folksdev Community, Turkcell Geleceği Yazarlar, Akın Kaldıroğlu(Udemy), Levent Ergüder(Udemy).

Interests: I have been involved with basketball since high school years. I participated in tournaments with various teams. During my university years, I took part in various student clubs such as Photography and Folk Dances. Again, at university, we formed a concrete canoe team with my classmates at the university and participated in the competition.

PROFESSIONAL EXPERIENCE

Java Developer at <i>BilgeAdam Teknoloji, Remote</i>	March 2023 – Feb 2024
Software Developer at Garanti BBVA Teknoloji via BilgeAdam Teknoloji, Remote(Outsource)	August 2023 – December 2023
